“NC State University and N.C. A&T State University are collectively committed to positive action to secure equal opportunity and prohibit discrimination and harassment regardless of age, color, disability, family and marital status, gender identity, genetic information, national origin, political beliefs, race, religion, sex (including pregnancy), sexual orientation and veteran status. NC State, N.C. A&T, U.S. Department of Agriculture, and local governments cooperating.”

Is the Master Gardener Program a good fit for you?

- Want to share gardening knowledge with others?
- Want to learn more about flowers, vegetables, lawns, and gardens?
- Want to meet other gardeners?
- Are you available to attend training sessions and become an ongoing volunteer?

Pollinator houses Pasquotank MG sold at Dare County Garden show

The Master Gardener program began in the Seattle area in 1973. It was developed to meet the needs of local gardeners for guidance on best gardening practices. The program was so successful that it now operates in all 50 US states.

The Extension Master Gardener Volunteers of Pasquotank County is run through the County Cooperative Extension Office. In exchange for education by Horticultural Science professionals, Master Gardener volunteers are committed to give back to the community by helping to educate the public on best practices that are unbiased and research-based.

Master Gardener Training

The researched based training covers lawns, landscape plants, fruits, vegetables, problem management and environment stewardship. Cooperative Extension agents and experts teach classes with focus on our local climates and growing conditions.

Training consists of three-hour classes meeting weekly over 14-weeks.

Contact Grace Manzer at Pasquotank Cooperative Extension for more information.

Volunteer Opportunities

- Lecturing on gardening topics
- Working with children and schools to cultivate love for plants at a young age
- Teach garden skills
- Ask a Master Gardener Booth
- Beautification of the county
